COFFEES FOR A CAUSE

Women in Coffee

Benguet Arabica

We work with women from various coffee communities. Through coffee, these women are able to meet their daily needs and add some more for the future. Further, they encourage the next generations to handpick and harvest coffee to keep this tradition alive. The women painstakingly work on these coffee beans, so you can get the best brew cup after cup. And through coffee, these women achieve financial freedom, giving them pride and self-esteem.

COFFEES FOR A CAUSE

Coffee for Peace Organic Washed Robusta Kandayok, Panamao, Sulu

We work with communities in Mindanao who are taught to harvest only red ripe cherries when coffee is at its peak of ripeness. The community engages the women and also some men to wash and dry the coffee, and then bring them to our roasting partners for batch roasting. Through coffee, these community members now prefer to invest in buying coffee rather than investing in arms. Truly, coffee has become an instrument to attain peace in these parts of Mindanao.
